1. Mission of Organization *

Orland Tree Committee was established by the City of Orland to advise the Public Works Department in the planting of trees around Orland. It is composed of one retired U.S. Forest Service biologist, two certified arborists, one Ag Extension person who works in orchards, and four community activists. We are dedicated to increasing the number of trees in Orland, replacing sick trees and ensuring replacement trees are planted well, growth, watering, and maintenance.

2. Description of Project *

Our present focus is the planting of tall, broad arching shade trees in the island on Third Street. We have just received the "go-ahead" from the City Council. We will meet to discuss type of trees and the number needed to make the desired impact. We always work with the Orland Public Works Department.

3. Explain how this project benefits the people in and around the community of Orland. *

Every tree planted brings the much desired shade, removes carbon dioxide from the air and gives back our life giving oxygen. Trees also add beauty to the environment giving inspiration to artists and poets, and hope for our future. Making our little town more attractive will bring more residents and businesses.

5. What sources other than the Foundation are available to fund the project: *

At present we have \$1,800.00 dollars in our Tree Committee fund at City Hall. The money has come in many small donations from civic groups; Lambda Iota gave \$100.00; Women's Improvement Club gave \$600.00; Overton Family gave \$125.00; and just this week I got thirty dollars in cash from a friend in Oregon.

6. How shall the grant be recognized by your organization?
(newspaper, thank you note, plaque, etc.) *

We shall immediately write personal "thank-you" to the Foundation. It shall be followed by letters to the editor in all the local papers, pictures on the community snapshots page of the ER and if feasible a plaque of some kind.

7. Attach organization's current year's budget *
