Barceloux – Tibessart Foundation
P.O. Box 908
Orland, CA 95963

Members of the Committee;

The Friends of the Orland Cemetery as well as the Orland Cemetery District, wish to thank you for your generous grant on behalf of honoring the U.S. Veterans at rest in our yards. The monies have been utilized for the purchase of two black monuments depicting a tri-folded flag as is given to the family of a deceased veteran. The cost of the supporting structure work of concrete and brick has been paid by the District. It has been our hope, that in, the near future we would be able place a monument at each of the four cemeteries that are in our district. The Graves and Masonic locations have been completed. Please see the attached photos of the finished monuments. These have taken a bit longer due to the pandemic and related restrictions for importing granite from outside the country.

The second stage of our project includes the same size of monument and supporting structure for the Catholic Cemetery and the same monument that is one-third larger for the Oddfellows yard to be placed in the center of our flag area in which we have flags representing all branches of the armed forces and the merchant marine service. With each gracious grant of monies by the Barceloux-Tibesaart Foundation, the Orland Cemetery District has contributed a share of the needed monies to complete the vision. We are grateful for continued consideration by the Foundation for the remainder of project. You will find documentation with this letter that is an estimate for monies needed to complete the vision for the remainder of the yard in the District yards.

In the estimate, you will see a 33% increase in the costs for most of the materials needed for the project. In recent conversation with the supplier of the monuments, the District Manager was informed that the costs of the material would be considerably higher, and that extra time would be needed to secure the arrival of the monuments from overseas. The last monuments took three months to be shipped and passed through Customs to arrive at the Cemetery. The Committee will see in the supporting documentation, the invoices for the costs of the last part of the project and an estimate for the remainder of the monuments. Along with the costs of the monuments, you will find included the cost estimates for cement, reinforcing bar, column kits and expenses for the necessary forms for the construction of the concrete forms for the foundation. We hope that the Foundation will take great pride in noticing that the Foundation is given proper representation for its' contribution to the monuments on the base of the monument.

Sincerely,
The Friends of the Orland Cemetery
The Orland Cemetery District.
